

New Patient Name: _____

Welcome to Anderson Chiropractic! Thanks for choosing our office. We appreciate the opportunity to serve and assist you in regaining and/or maintaining your optimal level of health.

We have been blessed with the privilege of helping thousands of patients over the years, and through that experience we have learned some key things about a patient's first visit.

1. Time is valuable. We feel we have a very efficient office procedure and will do our best to minimize your wait and total time spent in our office. Please allow up to an hour for this visit.
2. People don't like a lot of paperwork. We try to simplify and minimize forms to be filled out. Still, some is necessary for thoroughness, efficient billing, etc. A basic information form will be completed now. Then later this visit, as you are familiarized with our special focus and procedures, you will complete a form specific to your health status.
3. People are often curious or nervous about the first visit. What will happen today? To best inform each new person to our office, we have created a brief, personalized video which will "walk you through" today's visit. You will view it immediately after completing the attached form. Please, pay close attention...teamwork gets the best results in our office.

Again, welcome to Anderson Chiropractic! Complete the brief form which follows and we will get started shortly.

For Better Health,

The Anderson Chiropractic Team
